Lost River

Four distinct and flourishing color options provide a natural springboard for design. Cascade Beige delicately mimics a light, golden sandstone for an on-trend, warm and inviting neutral. Rush Gray is equally tranquil, frothing with a more cool, invigorating tone. Adrift Taupe's combination of effervescent mid-tones offers a unique balance of color blended with striking, granular textures and veining. Torrent Black is perhaps the most dramatic of the collection with its deep pools of rich tone-on-tone dark grays and swirling black.

Metropolitan

Natural high density, all-weather performance. Florida Tile Metropolitan Quarry has the distinction of being an unglazed ceramic quarry tile, made in the United States, which can be installed inside or out, is frostproof and maintains high-quality style, and durability. Color throughout the body of the tile supports wearability. Wearing, over time, actually produces a natural patina and deeper character. Where performance and style is required, Florida Tile Metropolitan Quarry is the right choice. The modular sizes and blendable colors of this indoor/outdoor unglazed quarry tile support an unlimited palette of pattern combinations.

NY2LA

No two cities are more symbolic of the modern metropolis than New York and Los Angeles. Inspired by these epicenters of contemporary design and popular culture, NY2LAHDP targets the modern aesthetic. Compelling characteristics of cement and plaster fuse into a porcelain representation of urban sophistication. Graphics are created by hand, starting from recycled pavers and then precisely layering raw elements, sanding, tinting and repeating. The graceful movement of color and subtle texture create a look that is both industrial and urbane.

Rhyme

Rhyme was inspired by a traditional linen fabric look. Throughout the history of design, linen looks have been popular for their textural richness and simplicity of natural fibers. Today the combination of textures is ever more popular with the mix of natural stone, glass and other elements. A linen look can be both contemporary and timeless, with a monochromatic palette and mix of simple but elegant texture. Through an innovative design process, we can replicate the fragile texture of fabric in the surface of our tile. Rhyme, was created with a combination of this natural texture featured in the punch, along with a graphic that replicates the subtle tone-on-tone effect of the man-made material.

Tuscan Villa

This traditional travertine inspired look has a modern palette and clean edges. The movement within each graphic and the premium glaze on the surface provides a luxurious distinction. A soft feel stands in strong contradiction to the extreme durability and slip resistance provided by this state-of-the-art glaze. Arezzo Ivory stuns with a warm white base and swirls of light gray and fawn hues, Cortona Beige is imbued with a palette of beiges and golds over a base of alabaster, and Florence Silver is a dramatic blend of soft gray tones that fuse into a sterling nebula.
